

CEPR would like to invite you to

The Seventh Framework Programme: Opportunities for the Economic and Social Sciences

October 11th
Central London (*venue tbc*)

CEPR is organising an **information exchange event** for researchers in economic and social sciences. The event is organised with the support of the Marie Curie Directorate of the European Commission.

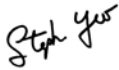

This is a rare opportunity to:

- **Receive first-hand information on FP7 funding opportunities** in economics under FP7
- **Engage with high-level representatives** from the European Commission and the UK Economic and Social Research Council (ESRC)

High-level representatives from the European Commission's DG Research will present the new 7th Framework funding programme (FP7) and, in particular, opportunities for the social sciences and economics. There will be a presentation from a representative of the ESRC, a panel discussion on "The Impact of Social Sciences on Research", as well as time for a question and answer session.

CEPR is looking forward to welcoming you at the workshop.

With best wishes,

Stephen Yeo
Chief Executive Officer
